

Norstar

Telephones

Simple, efficient tools to help you be more productive...

To end-users, the telephones are the system. Your telephone is the most critical interface to your business productivity. Internal communications, customer services, and business to business activities - they are your lifeline to business communications. Nortel understands that the user's perception of the telephone and the manner in which it delivers services is the benchmark by which a voice system is measured. Norstar offers a wide range of user-friendly telephones in attractive, compact designs to fit any need in your business - from the front desk to the conference room, and anywhere in between. The desktop is just one place where Norstar really shines.

Our telephones are some of the easiest to use, with Liquid Crystal Displays (LCD) to guide you through the use of each feature and application.

Whether you choose a desktop or office mobility solution, or Norstar, Companion Wireless or Business Series Terminal product, you can count on the Norstar reputation for outstanding quality, durability and reliability.

• Features

A long list of standard features comes with every telephone...

Every Norstar Telephone, Companion Wireless, and Business Series Terminal supports a long list of standard features that are so easy to use, your employees will become more productive immediately:

- **LCD window with soft keys** – walks users through features and applications. This makes Norstar one of the easiest telephone systems to use, and eliminates the need for time-consuming and expensive training.
- **High quality handsfree speakerphone** – built into each Norstar telephone, for added convenience and productivity (not available on M7100 and T7100).
- **Intercom** – increases the convenience of interoffice conversations, while keeping outside lines free.
- **Programmable buttons** – let you customize each user's phone with the right mix of features, lines, and intercoms.
- **Memory buttons** – provide fast access to frequently dialed numbers.
- **Call log** – tracks and records incoming calls.
- **Hold** – provides waiting callers with tones or music plus a periodic reminder of held calls.
- **Volume control** – lets you adjust the ringer, speakerphone, headset, and handset volume.

- **Automatic set relocation** – ensures that each Norstar phone stays programmed through office moves. Just plug it in and go!
- **Selective ringing tones** – give users the choice of four ringing tones to easily distinguish their phone's ring from others nearby.
- **Headset jack** – allows the convenience of a headset-without unplugging the handset (not available on M7100 and T7100).
- **Wall-mount capability** – gives you the flexibility to place a phone wherever it's needed.
- **Attractive, compact design in a variety of colors** – looks great and works great in any office environment.
